

## IAU FALL TROUBADOUR #2

"The ultimate value of life depends upon awareness and the power of contemplation rather than upon mere survival."

*Aristotle*

Chers Collègues, chers Etudiants,

Nous regrettons ce qui est arrivé hier à ces quatre jeunes étudiantes de Boston College. Comme je vous ai dit, les villes d'Europe sont aussi sûres sinon encore plus sûres que la plupart des villes d'où vous êtes originaires. Néanmoins, des dangers existent. Though we are shocked and saddened by what the four young BC students experienced yesterday in Marseille, we are relieved that you are all safe, and we hope you will remain aware and vigilant of your surroundings as Professor Breeden advised during orientation. We further hope that you will keep in mind that these instances can take place anywhere throughout Europe or the US. No reason to conclude that Europe in general is somehow less secure. Your education and your international experience will serve you well in staying focused on where the real threats are. Have an excellent week.

Bien à vous,  
Leigh Smith  
Dean
