

Madrid Coliving Residence

The perfect mix between an apartment and a student residence

Our colivings are only 15–20 minutes away from the IAU Madrid center and city center. Near the properties you will find parks, stores, restaurants, supermarkets and more. You will be able to live in a typical Spanish neighborhood and will benefit from the local experience, avoiding the expensive touristic prices.

Our colivings offer common spaces where you can interact with other residents and feel part of the community.
