 - If interested [email \(camille.zwaan@iau.edu\)](mailto:camille.zwaan@iau.edu) or sign up at front desk

STUDENT SPOTLIGHT

Hi guys! I'm Bryson, an undergrad student at Rollins College in Orlando, Florida majoring in Business management with a concentration in finance, and a minor in French. In middle school I had the choice between taking Spanish, Chinese and French, and I ended up choosing French, since it is a beautiful romantic language. Since a young age, I have played soccer and been a musician, specifically playing flute. I was fortunate enough to be a part of the United States U16 team for one game before I was dropped. I chose flute when I was 10 years old because it was the shiniest woodwind instrument. I have decided to spend the semester in Aix-en-Provence so that I can truly indulge in the French culture and have a real immersion experience in the culture which I am so intrigued. With the help of some classmates, I have created the Exploring Masculinity Discussion Group here at IAU. If this intrigues you at all, I welcome you to come to our next session at Le Galois at 5:30pm on Wednesdays. Catch me on bar street Thursday through Saturday. God Bless America.

STUDENT SPOTLIGHT

Hi, my name is Alix. I am currently a junior in college who is majoring in French and Women's and Gender Studies at Saint Mary's College of California, just an hour from my hometown of Burlingame. I love studying in Aix. Last week, I visited Paris, and I got to visit Euro Disneyland, which was one of my number one things to do while I am abroad. I also got to visit some famous restaurants in Paris, such as Les Deux Magots, Laduree (where I was also able to pick up a box of macarons to enjoy in Aix), and Angelina, famous for its hot chocolate, and where I was also able to buy some hot chocolate mix and cocoa spread to enjoy back in Aix.
